“ We have been using the WBS since 2004. Being old school we were very reluctant to move over to the digital format but once we got our heads around it we love it! The convenience of doing a quick and easy casting, making sure no-one gets left out of a category and my actors love getting a timeslots. I also like to be able to see all my clients pics of castings they have a attended and obviously all personal details are on hand. I find the system easy to navigate and quick to load new artists. Thanks WBS team. ”
